ViewSonic® ePosters for Dynamic Signage, Anywhere

September/October 2012

EP3202r

ViewSonic's ePoster products feature built-in memory for storing high impact graphics as well as a powerful management tool featuring a content scheduler, duration timer and special effects editor for image transitions. Retail messaging is easy with ViewSonic's ePoster family of retail displays. Information is disseminated through the ePoster's internal network connection or locally via the USB port. ePoster products are available in various sizes and models and can be free standing or wall mounted. Great for announcing special promotions, computer-generated information or communicating multimedia with photos, audio, signage, and video.

ViewSonic® ePosters for Dynamic Signage, Anywhere

September/October 2012

EP5555T

In-store "way-finding" is easy with ViewSonic's new interactive ePoster display solution. With its drift free 4K x 4K touch interface and vivid screen resolution, retail messaging and image navigation is easy with all-in-one EP5555T ePoster. Simply connect the output of your PC to the versatile input ports and common USB port for your touch interface and your application comes alive. A ViewSonic's ePoster display can easily be connected to a corporate network by adding a network media player. Security is achieved through the locking back cover.
